Re: City Council agenda items 60 and 61 (March 26, 2009)
4808 West William Cannon

To Whom It May Concern:

A restrictive covenant agreement has been reached with the applicant for rezoning this property from SF-2 to LR-MU-CO-NP.

The agreement necessitates one change in the draft ordinance. The vegetative buffer along William Cannon is to change from 25 feet to 50 feet. We have been informed by the applicant's representative that Wendy Rhoades, Zoning Case Manager, is aware of this request.

Thank you for your support regarding this matter.
